## Memorandum

To: DM, Bakersfield  
Director (509), Room 3529, MIB

From: Deputy State Director, Lands & Renewable Resources

Subject: Atlas Mine Draft Feasibility Study DD: 01/10/89

The Environmental Protection Agency Region 9 has provided the Bureau with the subject document to insure early input prior to release to the public.

The Bakersfield District will arrange for SC review and consolidate their comments with the technical comments received from SC. Comments from the Director should be consolidated by WO 509 to insure interstaff review if that is determined to be necessary by the WO Hazardous Materials Staff.

It is imperative that all reviewers have their comments to the California State Director, Attn: CA-932.7 no later than January 10, 1989 to insure that consolidated agency comments are transmitted to EPA in a timely manner.
