PART IV: INFORMATION ON DISPOSAL OF HAZARDOUS SUBSTANCES	15

APPENDICES

Appendix A: List of RCRA Authorized States

INSTRUCTIONS FOR COMPLETING THE 1992 INVENTORY OF FEDERAL HAZARDOUS WASTE ACTIVITIES

INTRODUCTION

Section 3016 of the Resource Conservation and Recovery Act (RCRA) requires all Federal agencies to "undertake a continuing program to compile, publish, and submit to [EPA] an inventory of each [hazardous waste] site the Federal agency owns or operates." Federal agencies must submit this inventory to EPA once every two years. This is the fourth inventory and is due to EPA on or before January 31, 1992.

This questionnaire has been developed to assist you in complying with section 3016. Your cooperation in completing this questionnaire will enable EPA to easily compile the inventory.

GENERAL INFORMATION

1. Submit all completed questionnaires to:

Office of Solid Waste (OS-340)
Attention: Kenneth Shuster
U.S. Environmental Protection Agency
401 M Street, S.W.
Washington, D.C. 20460

2. If your facility is located in a State authorized under RCRA, you must also submit a copy of the questionnaire to the appropriate State office (See Appendix A for a list of authorized States).
3. If the information you are submitting in response to this questionnaire is classified or restricted as national security information, contact Mr. Lee Herwig at EPA's Office of Federal Activities for instructions on how the information is to be handled. He can be reached at (202) 260-8970. You should also include, if applicable, the legal justification for the information to be treated as classified or restricted in the interest of national security.
4. If the information you are submitting would normally be considered confidential business information (CBI) under 40 CFR Part 2, your claim must be made when you submit the questionnaire. You should also include, if applicable, the legal justification for the information to be treated as confidential.

If you do not submit the claim of confidentiality with your questionnaire, EPA may make the information available to the public without further notice to you. Please refer to 40 CFR 2.203 and 270.12 for further information on CBI.

5. Section 3016 requires that you submit information for "each site which the Federal agency owns or operates or has owned or operated at which hazardous waste is stored, treated or disposed of or has been disposed of at any time." This means that you must submit information for sites where hazardous waste has been disposed, even if that disposal occurred

Corrective Measures Study -

the evaluation of proposed methods of remediation to determine if they are effective in controlling the source of the release, and cleaning up the release.

Disposal - (as used in Part IV of this questionnaire)

the discharge, deposit, injection, dumping, spilling, leaking, or placing of any hazardous substance into or on any land or water so that such hazardous substance or any constituents thereof may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

Disposal Facility - (as used in Part III of this questionnaire)

a facility or part of a facility at which hazardous waste is intentionally placed into or on any land or water, and at which waste will remain after closure.

Environmental monitoring -

the process of measuring certain environmental parameters (such as contaminant concentrations, pH, BOD) for spatial and time variations. For example, air monitoring may be conducted to indicate relative changes in air contaminant concentrations at various times.

Feasibility Study (FS) -

the study undertaken to develop and evaluate options for remedial action under CERCLA.

Federally Owned or Operated Facility -

all contiguous property owned and/or operated by a Federal agency at any one location and at which hazardous waste is stored, treated, or disposed, or has been disposed. The boundary of the Federal facility is the perimeter of the contiguous property owned or operated by the Federal agency, irrespective of the boundary of any CERCLA sites or RCRA facilities located on the property.

For purposes of this inventory, a property may be divided into one or more facilities (and reported on separate forms) even if on contiguous property. For example, a very large Forest Service property with two distinct hazardous waste operations, 50 miles apart, and operated by two different non-agency parties may logically be reported as two facilities. Additionally, two non-contiguous but adjacent properties (e.g., separated by a public road) may logically be combined on one form if the adjacent properties are owned and operated by the same organization. Separate RCRA facilities (i.e., facilities assigned different RCRA ID numbers) should be reported separately.

Federally owned or operated facilities would include:

GOGO - government owned/government operated facility where the government owns and operates all regulated activity.

GOCO - government owned/contractor operated facility where the facility is owned by a Federal agency but all or portions of it are operated by a private contractor for the benefit of the Federal government.

GOPO - government owned/privately operated where the government has leased all or part of a government facility to a private operator for the operator's operation and profit.

National Priorities List -

the list of facilities or locations, compiled by EPA pursuant to CERCLA section 105, where uncontrolled hazardous substances need to be addressed under CERCLA authorities.

Proposed - the site has been evaluated and scored using the Hazard Ranking System (HRS), has been proposed in the Federal Register, the proposal was (or may still be) open for comment; however, it has not been listed.

Listed - the site appeared on the NPL in a final Federal Register notice. It has been scored and ranked according to the HRS, and meets or exceeds the score EPA has set as the listing criterion.

Operator -

the person responsible for the overall operation of a facility.

Owner -

the person who owns a facility or a part of a facility.

Part B Permit Application -

an application for an operating RCRA facility permit under 40 CFR Part 270.

Person -

refers to an individual, trust, firm, joint stock company, Federal agency, corporation, partnership, association, State, municipality, commission, political subdivision of a State, or any interstate body.

Post - Closure Permit Application -

the application for a RCRA permit to cover a land disposal facility's post-closure care period.

Preliminary Assessment (PA) -

review of existing information and an off-site reconnaissance, if appropriate, to determine if a release may require additional investigation or action. A PA may include an on-site reconnaissance, if appropriate.

RCRA Facility -

all contiguous land, structures, other appurtenances, and improvements on the land, used for treating, storing, or disposing of hazardous waste on or after November 19, 1980, for which a RCRA facility identification number has been assigned. A facility may consist of several treatment, storage, or disposal operational units (e.g., one or more landfills, surface impoundments, or combinations of them).

The term "facility" is not limited to those portions of the owner's property at which units for the management of hazardous waste are located but rather extends to all contiguous property under the owner or operator's control.

RCRA Facility Assessment (RFA) -

identifies and assesses actual and potential releases from solid waste management units. The RFA provides the basis for decisions about implementing corrective action at facilities.

RCRA Facility Investigation (RFI) -

characterizes the nature, extent, and rate of migration of contaminant releases identified in the RFA, so that appropriate response actions can be identified.

INSTRUCTIONS FOR PART I: FEDERAL FACILITY GENERAL INFORMATION

Part I - Complete this Part for each Federally owned or operated facility, as defined on page iii of the instructions. For further information on completing this form, call 1-800-551-7846.

PART I.A - FEDERALLY OWNED OR OPERATED FACILITY IDENTIFICATION

1. Enter the exact name of the facility. Remember that a separate questionnaire needs to be completed for each facility. Corrections and updates from the 1990 questionnaires are to be made in red ink on the forms sent to you.
2. Enter the Federal Facility Identification Number. This is the 12 digit number assigned by the U.S. General Services Administration (GSA) to the agency that owns the property. A Federal Facility Identification Number has the State abbreviation as the first two digits, followed by a dash and nine numbers (e.g., NV-123456789).
3. Provide the 12 digit number assigned to the facility for the RCRA hazardous waste management program. All facilities responding to this questionnaire will not necessarily have this number. Only fill this in if your facility is a RCRA facility. The RCRA facility ID number has the State abbreviation as the first two digits, either a letter or number as the third digit, followed by nine numbers. The last nine numbers may be, but are not necessarily, the same as the last nine numbers of the Federal Facility Identification Number in Question 2 (e.g., NVY123456789).

PART I.B - RESPONSIBLE FEDERAL AGENCY

1. "Owner" refers to the entity that owns the Federal facility property. If the property is owned by the Federal government, both the Department and the Agency involved in the ownership should be identified (e.g., if the facility is a military installation, fill in the Department of Defense as the department, and the branch of the military as the agency. If there is no department, as in the case of EPA, leave department section blank). "Other" may refer to a private owner or some other level of government (e.g., State, county, city).
2. "Operator" means the person responsible for the overall operation of a facility. Only enter this information if the operator is not the same as the owner. See the definition of "Federally owned or operated facility" on page iii. If there is more than one type of facility at the same location, a separate form needs to be filled out for each.
3. Indicate the type of facility, based on the relationship between the owner and the operator. Choose only one of the nine choices listed: GOGO, GOCO, POGO, GOPO, Lessee, Foreclosure, Forfeiture, Trespass, or Withdrawal. The definition of each can be found on pages iii - iv. If there is more than one type of facility at the same location, a separate form needs to be filled out for each.

**INSTRUCTIONS FOR PART II: ENVIRONMENTAL MONITORING,
CONTAMINATION AND RESPONSE ACTIONS**

Part II - Complete this Part for each Federally owned or operated facility. If you are correcting data from the 1990 Survey, make corrections on the survey form in red ink. For further information on completing this form, call 1-800-551-7846.

PART II.A - ENVIRONMENTAL MONITORING

1. Indicate whether environmental monitoring is (or ever was) conducted at the facility. Environmental monitoring means the process of measuring certain parameters on a real-time basis for spatial and time variations. If your answer is yes, check yes and answer Question 2. If your answer is no, check no and skip to Question 5.
2. If environmental monitoring is (or ever was) conducted, indicate the media monitored.
3. If the data collected are available to EPA or an authorized State, check yes, and answer Question 4. If your answer is no, skip to Question 5.
4. Indicate the sources of information containing the submitted data. More than one answer may apply. Be sure to identify the State or Federal regulating office that maintains the information.
5. If the environmental monitoring data were not submitted to EPA or the authorized State, indicate the reason(s). If none of the identified responses are appropriate, describe the reason for the unavailability of monitoring data under "Other" (e.g., destroyed by fire).

PART II.B - HYDROGEOLOGIC SITE CHARACTERIZATION

1. Indicate if there has been a hydrogeologic site characterization conducted at the facility.
2. Indicate whether information on the location of wells and surface waters within one mile of the facility boundary is available. The boundary of the facility is the perimeter of contiguous property owned or operated by a Federal agency, irrespective of CERCLA or RCRA facilities on the property. Answer both parts of the Question (i.e., withdrawal wells and surface waters). If the answer is yes for either surface waters or withdrawal wells, answer yes and continue to Question 3. If no, check no and skip to Question 4.
3. Indicate if there are withdrawal wells or surface waters within one mile of the facility boundary.
4. If you answered yes to Question 1, or to either surface waters or withdrawal wells in Question 2, indicate whether information concerning a site characterization and/or withdrawal wells and surface waters has been submitted to EPA or an authorized State. Otherwise, skip to Section C.
5. If yes, indicate in what form(s) the information has been made available to EPA or the authorized State. Be sure to identify the State or Federal regulatory office in which the information is maintained.

Remedial Action means those actions consistent with permanent remedy taken instead of, or in addition to, removal action in the event of a release or threatened release of a hazardous substance into the environment, to prevent or minimize the release of hazardous substances so that they do not migrate to cause substantial danger to present or future public health or welfare or the environment. Examples of remedial action are confinement, perimeter protection, trenches, clay cover, and neutralization.

Removal means the cleanup or removal of hazardous substances from the environment. Such actions may be taken, as necessary, in the event of a release or the threat of release of hazardous substances into the environment, including such actions as may be necessary to monitor, assess and evaluate the release or threat of release of hazardous substances; the disposal of removed material; or the taking of such other actions as may be necessary to prevent, minimize, or mitigate damage to the public health or welfare or to the environment.

4. Indicate which of the nine activities have been taken at the facility and indicate their status. More than one activity may be identified.

Preliminary Assessment (PA) means review of existing information and off-site reconnaissance if appropriate, to determine if a release may require additional investigation or action. A PA may include an on-site reconnaissance if appropriate.

Site Investigation (SI) means an on-site inspection to determine release potential and the nature of the associated threats.

Remedial Investigation (RI) is a process undertaken to determine the nature and extent of the release. The RI emphasizes data collection and site characterization.

Feasibility Study (FS) is the study undertaken to develop and evaluate options for remedial action.

Remedial Design (RD) means the technical analysis and procedures which follow the selection of remedy for a site and result in a detailed set of plans and specifications for implementation of the remedial action.

7. Indicate if an RFA (RCRA Facility Assessment), or equivalent (e.g., Federal Facility Agreement), has been conducted for the facility. If the RFA (or equivalent) has been conducted, complete Question 8 according to the RFA. If you answered no to Question 7, skip to Part IV of the questionnaire.

8. Solid waste management units (SWMUs) are any discernable waste management units at a RCRA facility from which hazardous constituents might migrate, irrespective of whether the unit was intended for the management of solid and/or hazardous wastes. Indicate the types and number of SWMUs at the RCRA facility which have been identified in a RFA. Include only SWMUs which last received hazardous waste prior to November 19, 1980.

There may be many SWMUs that do not fit any of the descriptions provided. Such SWMUs should be included and described under the "Other" category. If more room is needed to provide the information requested, add an attachment to this page.

PART I: FEDERAL FACILITY GENERAL INFORMATION

Complete this part for each Federally owned or operated facility.

Note: This Part applies to all Federal hazardous waste facilities which are currently owned or operated by the Government. A "Federally owned or operated facility" or "facility" is defined as all the contiguous property owned and/or operated by a Federal agency at any one location and at which hazardous waste is stored, treated, or disposed, or has been disposed. The boundary of the Federal facility is the perimeter of the contiguous property owned or operated by the Federal agency, irrespective of the boundary of any CERCLA sites or RCRA facilities located on the property.

FEDERALLY OWNED OR OPERATED FACILITY IDENTIFICATION

1. Facility name:
2. Federal Facility Identification Number:
3. Provide the RCRA facility EPA ID number for the facility, if applicable:

RESPONSIBLE FEDERAL AGENCY

1. Facility owner
Department:
Agency :
Contractor:
Other :
2. Facility operator (if different from owner)
Department:
Agency :
Contractor:
Other :
3. Indicate the type of facility by checking ONE of the nine choices:
GOGO GOCO GOPO POGO Lessee
Foreclosure Trespass Withdrawal Forfeiture

Facility name:

Federal Facility Identification Number:

PART I: FEDERAL FACILITY GENERAL INFORMATION

Complete this part for each Federally owned or operated facility.

RESPONSIBLE FEDERAL AGENCY

4. What is the name, title and telephone number of the person who completed this survey?

Name

Title

Telephone (FTS)

Commercial

LOCATION OF THE FEDERALLY OWNED OR OPERATED FACILITY

1.a. Facility location address

Address

City State ZIP

1.b. If the facility has no street address, provide the county or township and the State in which the facility is located.

County/Township

State

2. Provide the latitude and longitude of the facility in degrees.

Latitude Longitude

3. What is the facility mailing address?

Address

City State ZIP

Facility name:

Federal Facility Identification Number:

**PART II: ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION,
CONTAMINATION AND RESPONSE ACTIONS**

Complete this part for each Federally owned or operated facility.

ENVIRONMENTAL MONITORING

1. Is/was environmental monitoring conducted at the facility?
(If the answer is No, check No and skip to Question 5. If Yes, check Yes and answer Question 2.)
Yes No

2. If Yes, what type of environmental monitoring is/was conducted?
 Air Soil Surface Water Ground Water
 Subsurface Gas other (describe)

3. Have data produced by this monitoring been submitted either to EPA or an authorized State?
(If the answer is No, check No and skip to Question 5. If Yes, check Yes and answer Question 4.)
Yes No

Facility name:

Federal Facility Identification Number:

PART II: ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION, CONTAMINATION AND RESPONSE ACTIONS

Complete this part for each Federally owned or operated facility.

ENVIRONMENTAL MONITORING

4. If monitoring data have been submitted to EPA or an authorized State, in what form was the information submitted?
(More than one information source may be identified.)

Information Source	Regulating Office Maintaining This Information
RCRA Part B Permit Application	<input type="text"/>
RCRA Facility Assessment (RFA)	<input type="text"/>
RCRA Facility Investigation (RFI)	<input type="text"/>
RCRA Corrective Measures Study	<input type="text"/>
RCRA Post-Closure Permit Application	<input type="text"/>

Remedial Action	<input type="text"/>
Routine Reporting	<input type="text"/>
<input type="text" value="RI/FS"/> Other (describe)	<input type="text" value="EPA REGION 9"/>
<input type="text"/> Other (describe)	<input type="text"/>
<input type="text"/> Other (describe)	<input type="text"/>
<input type="text"/> Other (describe)	<input type="text"/>

Facility name:

Federal Facility Identification Number:

PART II: ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION, CONTAMINATION AND RESPONSE ACTIONS

Complete this part for each Federally owned or operated facility.

ENVIRONMENTAL MONITORING

5. If environmental monitoring data have not been gathered or were not submitted to either EPA or an authorized State, why not?
- In process of determining if environmental monitoring is necessary.
 - Environmental monitoring determined not to be necessary.
 - Environmental monitoring necessary, but not yet implemented.
 - Environmental monitoring implemented, but results not yet available.
 - Other (describe)

HYDROGEOLOGIC SITE CHARACTERIZATION

1. Has a hydrogeologic site characterization been conducted at the facility?
Yes No In Progress Do Not Know
2. Do you have information regarding the location of withdrawal wells and surface waters within one mile of the facility boundary?
*Answer both parts of this Question.
(If Yes to Question 1, or either part of this Question, check Yes and answer Question 3, otherwise skip to Section 6.)*
- Withdrawal wells: Yes No
- Surface waters: Yes No
3. Are there any withdrawal wells or surface waters within one mile of the facility boundary?
- Withdrawal wells: Yes No
- Surface waters: Yes No
4. Has information concerning site characterization and/or withdrawal wells and surface waters been submitted to EPA or an authorized State?
Yes No

Facility name:

Federal Facility Identification Number:

PART II : ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION, CONTAMINATION AND RESPONSE ACTIONS

Complete this part for each Federally owned or operated facility.

HYDROGEOLOGIC SITE CHARACTERIZATION

5. If Yes, in what form is the information concerning the hydrogeologic site characterization and location of withdrawal wells and surface waters available?

(More than one information source may be identified.)

Information Source	Regulatory Office Maintaining This Information
Preliminary Assessment/ Site Investigation (PA/SI)	<input type="text"/>
Remedial Investigation/ Feasibility Study (RI/FS)	<input type="text"/>

<input type="text"/> Other (describe)	<input type="text"/>

ENVIRONMENTAL CONTAMINATION

1. Have there been any releases of hazardous substances to the environment at the facility?

(If the answer is No, check No and skip to Section D, Question 1. If Yes, check Yes and answer Question 2.)

Yes No

2. If Yes, indicate the media into which release(s) occurred.

(More than one media may be checked.)

Air Soil Surface Water Ground Water

Subsurface Gas Other
(describe)

Facility name: ATLAS ASBESTOS MINE

Federal Facility Identification Number: C A - 1 4 1 1 D 0 0 0 4

**PART II: ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION,
CONTAMINATION AND RESPONSE ACTIONS**

Complete this part for each Federally owned or operated facility.

ENVIRONMENTAL CONTAMINATION

3. Has contamination from this facility extended onto adjacent property?

Yes No Do Not Know

4. Is information available concerning a) the amount, nature, toxicity, concentration of wastes or waste constituents, lateral extent, or environmental impact assessment of any release or: b) the nature and extent of any off-site contamination?

(If the answer is No, check No and skip to Section D, Question 1.

If Yes, check Yes and answer Question 5.)

Yes No

5. Has this information been submitted to EPA or an authorized State?

Yes No

Facility name:

Federal Facility Identification Number:

PART II: ENVIRONMENTAL MONITORING, SITE CHARACTERIZATION, CONTAMINATION AND RESPONSE ACTIONS

Complete this part for each Federally owned or operated facility.
